

SLEEK. PERSONAL. ALIVE.

Over the last 25 years, Johnny G has been engineering the next evolution of indoor bikes. His newest creation is a beautiful, SLEEK machine of uncompromising design. Johnny has taken the guess work out of working out with his push button magnetic resistance. It allows the user to replicate their last ride for a consistent and rewarding workout every time creating a PERSONAL experience for every ride and rider. Gone are the days of patchwork welded tubes; Johnny's newest creation uses a monocoque steel frame and heavy base. This perfect marriage of vision and practicality allows the back of the frame to flex like the chain-stays on an outdoor bike, creating a response which makes the bike feel ALIVE.

Don't settle for the old standard of indoor bikes, your clients deserve to ride the best bike ever built: The Johnny G Spirit Bike.
